# National Equipment Register

Theft of construction equipment results in hundreds of millions of dollars in losses each year. Even the most secure jobsite can run the risk of losing valuable equipment to professional thieves, and once the tires leave the jobsite, recovery of the equipment becomes paramount.

## Hanover Partnership

The Hanover has partnered with the National Equipment Register (NER) to help our customers protect valuable construction equipment. In the event of a theft loss we agree to waive your deductible amount up to \$10,000\* if your stolen equipment is not recovered within the first sixty days from the date of loss and the equipment was registered with NER prior to a loss. Additionally, The Hanover has preferred pricing through NER. The more equipment you register, the greater the discount.

## Valuable low cost tracking for missing equipment

IRONwatch is a new tracking and recovery device that finds your missing equipment and helps law enforcement recover it. There are no monthly fees with IRONwatch. There is a low-cost option to “ping” the equipment and the IRONwatch team will work with law enforcement on your

behalf to locate and return your equipment. In addition, NER provides a free HELPtech registration and HELPtech decal to add to your equipment to help deter would-be thieves. AND if your equipment is stolen, Hanover will pay for Theft Tracking\* to bring it back to you!

## ▶ NER Registration Process

There are three ways to register equipment with NER:

- Online at [www.NER.net](http://www.NER.net), use code HAN07 for special preferred pricing
- Email—send your equipment schedule to [uploads@nerusa.com](mailto:uploads@nerusa.com). A template for the schedule can be downloaded at [www.NER.net](http://www.NER.net)
- Call NER directly, and they will walk you through the process

## Questions?

Call Michael St. Hill at NER: **866-663-7872**
