

What You Get

In addition to the HELPtech database, NER also provides:

- Online and telephone operator searches of databases
- Teams of investigators
- National training programs for officers, investigators and owners
- Theft deterrent stickers for registered equipment

Other Benefits

- When a theft is detected a full loss report will be added to the NER database, ensuring the speed and accuracy of the loss report
- NER can identify the *true* owner of registered equipment if found in suspicious circumstances - even before the theft has been discovered
- Thieves are deterred when equipment has been marked with NER decals
- Owners can record component and owner-applied numbers on the HELPtech database, which gives law enforcement an added identification tool and helps prove ownership
- Theft deterrence and the increased chance of recovery improves loss experience and controls the cost of risk

At Lawley, we pride ourselves as a progressive organization that keeps pace with industry trends in a dynamic environment. We have the talent, technology, strategic thinking and industry expertise to provide you with the highest level of consultative service. Our staff is not only knowledgeable; they are friendly, helpful and responsive to your needs. We set the standard for service excellence.

Our ultimate goal is to maintain the camaraderie and passion for our business, which affords our clients an unparalleled quality of service. You will find that when you partner with Lawley, you can rest insured.

NATIONAL EQUIPMENT REGISTER

*Partnership to Combat all
types of Construction and
Farm Equipment Theft*

Lawley

Protect and Prevention

Register your insured equipment and received a 20% Lawley Client Discount!

The theft of construction and farm equipment is a growing and costly problem which has a direct impact upon a company's bottom line.

To help our clients combat equipment theft, Lawley is working with National Equipment Register (NER) to offer HELPtech, a program that allows clients to register construction or farm equipment in a national database. This secure and confidential registration, including serial numbers, gives law enforcement officials anywhere in the country the ability to identify the true owner of equipment 24 hours a day - even before the theft has been discovered.

What Is the HELPtech?

HELPTech services increase the recovery rate of stolen equipment and reduce the costs associated with theft. The system allows law enforcement to identify the true owner of a registered vehicle anytime, day or night.

What Is the National Equipment Register?

The NER is a national database of heavy equipment theft reports and ownership records that helps authorities track down any NER registered stolen equipment. The database contains more than 13 million ownership records and some 80,000 theft reports. For a small fee per machine per year, owners can securely and confidentially register their entire fleet with NER, by serial number and any other tracking number used by owners. Smaller fleets may register equipment online and larger fleets can download electronic inventories.

How to Register

Register Online:

Online: go to www.nerusa.com

Electronic Upload: E-mail a spreadsheet of equipment details to info@NERusa.com. A spreadsheet template can be found at www.nerusa.com.

You can also fax or mail your registration. Call 866.663.7872 for more information.

Make sure to have basic vehicle information handy including serial numbers. Payment can be made by credit card or check

IT WORKS!

MORE THAN \$20 MILLION IN STOLEN EQUIPMENT HAS ALREADY BEEN RECOVERED!

Lifetime Registration

To register a piece of equipment on the HELPtech database for as long as you own the unit, costs only \$32.00. Two warning decals are provided with each registration.

Annual Fee Option

For owners with a larger fleet, this option may be more cost effective. Annual fee customers also benefit from secure, online access to the HELPtech database which allows you to add or delete machines as they are bought or sold. The fee only applies to the total number of items registered, not how many are added or removed in any given year.

Some insurance companies even offer up to \$10,000 deductible waiver or premium discounts for stolen NER-registered equipment.

Maximum # of Items	Annual Fee (\$)	Lawley Client Fee (\$)
5	75	60
10	100	80
20	180	144
50	400	320
100	700	560
